Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Chapter 13 Overview Earthquakes Answers

A 3.0 magnitude earthquake is 10 times stronger than a 2.0 magnitude earthquake on the Richter scale. Answers are: (a) VI (b) 5 Because the Modified Mercalli scale is based on the damage suffered by buildings, the ground, and people, and because earthquake damage from the same earthquake can be different from place to place.
